

Mechatronics & Robotics Conference (MECHROB) 2004 Aachen, Germany

<http://www.mechrob.de>

INVITATION TO ORGANIZE SPECIAL SESSIONS

Special sessions are prestigious and endow an opportunity to the organizer to define and elevate the quality of the conference by bringing in eminent people and serious researchers to present their results that potentially impact the direction of research in that topic. The reward to the organizer and other presenters of such a session is to network closely with the top researchers in their research field, to have an opportunity to impress, to influence other researchers in this field, and to mentor young researchers.

Procedure to submit a proposal for a special session:

1. Please send a proposal to organize a special session to:

- (i) To General Chair: P. Drews (drews@aps-mechatronik.de)
- (ii) To special session chairs: C.Cecati (c.cecati@ieee.org), M.C. Carrozza (chiara@mail-arts.sssup.it) and Ch. Chevallereau (Christine.chevallereau@ircyn.ec-nantes.fr).

2. The proposal, preferably, should contain the following:

- (i) Topic
- (ii) Organizer's name, complete address, phone number and email address
- (iii) How many papers in that session planned for (Please limit 5 papers per session)
- (iv) Who are being invited to present papers in that session
- (v) Submit the names of the authors who will participate in the session and their addresses and email addresses
- (vi) Names of the session's chair and co-chair

Some of this may be filed at a later date when all the info is available. Please start with items (i) to (iii) and then send other info as they become available.

We are looking forward to your proposals and an opportunity to work with you for a successful MECHROB 2004.

With best wishes and regards!

Prof. P. Drews
General Chair
Mechatronics & Robotics 2004
